## Where Time Grows Wild

**Mohit Saini**

In the meadow where the wildflowers bloom,  
time dances freely, shedding its chains,  
each petal whispers secrets in full plume,  
as sunbeams play, unfurling their refrains.

Winds carry tales from the ancient trees,  
their roots entwined with stories of yore,  
where laughter echoes in the gentle breeze,  
and moments linger, asking for more.

Here, the clock's hands lose their tight embrace,  
days stretch like shadows beneath the sky,  
time flows like a river, a soft embrace,  
inviting wanderers to simply fly.

In this realm where worries cease to roam,  
the heart finds solace, a tender grace,  
where memories blossom, and dreams call home,  
each second a treasure, no need to chase.

So let us wander where the wild things grow,  
where time, untamed, reveals its soft glow.

### **Author's Bio:**

**Mr. Mohit Saini** is an Assistant Professor at Compucom Institute of Technology & Management in Jaipur. With 8 years of experience in the field of language, linguistics and literature, He has contributed significantly to research and education in these areas.
